

National Motorcycle Profiling Project

<https://www.motorcycleprofilingproject.com/survey>

The National Motorcycle Profiling Survey is designed to help define the profiling trends so we can focus our resources on the areas that need it the most. Your participation will have a long-lasting, positive impact on the community. This survey on average will take 1 minute to complete.

The information collected in these surveys has been an essential part of lobbying efforts at both State and Federal levels, and without a doubt provides critical data points for the grassroots activist to intelligently communicate issues impacting the motorcycle community and influence change.

With over 57,000 survey participants of past survey efforts, from all walks of life, the National Motorcycle Profiling Survey has a 99% accuracy and has proven that many motorcyclists are being targeted by law enforcement based on appearance. This acquired Survey information has been the foundation for getting several States to pass Anti-Motorcycle Profiling bills.

Your privacy and anonymity are important and respected. By asking for no more than your zip code, which is also voluntary, no personal information is retained.
